#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-3, 15-17, & 29-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Rumph et al.

Re claims 1-3, 15-17, & 29-30, Rumph et al discloses (Figure 2; column 5, lines 28-39) an arrangement for asymmetric trapping to compensate for asymmetric misregistration behavior of a raster printing system.

Re claims 2 & 16, the images of Rumph et al are necessarily presented to the device in some coherent format, readable upon the (not further described) recited page description language.

Art Unit: 2624

Re claim 30, the traps of Rumph et al will necessarily have some smallest and largest width, readable upon the (not further described) recited minimum and maximum trap width.

***Allowable Subject Matter***

4. Claims 4-14 & 18-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The following is a statement of reasons for the indication of allowable subject matter:

Re claims 4 & 18 (and dependent claims 5-14 & 19-27), the art of record does not teach or suggest the recited definition of an asymmetric transform, region transformation, and definition of an inverse transform to generate traps in conjunction with an arrangement for asymmetric trapping to compensate for asymmetric misregistration behavior of a raster printing system.

***Conclusion***
